2 August 1960

25X1A

MEMORANDUM FOR: Development Projects Division, DD/P

ATTENTION :

[REDACTED]

FROM : Chief, TISD

SUBJECT : Critique of Data on Film Format, (Project O. C.)

1. The method of recovering the Nadir is satisfactory provided that the timing dots are recoverable i.e. that they are not so blurred that they make measurement uncertain.

2. There is sufficient information in the data chamber, however all data as indicated in format drawing will be reproduced at an extremely small scale, i.e. digits will be less than 0.7mm in height, and the clock diameter about 1/8". It is recommended that a larger digit display be attempted. Make digits not less than 2.5mm and clock face not less than 12.5mm, if possible.

3. Recapitulation of data per frame. Amount of information is satisfactory:

- a. GMT clock
- b. V/H status
- c. Date
- d. Latitude
- e. Longitude
- f. Mission Number
- g. Caged status
- h. Ground speed
